About

- I'm currently pursuing B.Tech CSE with AI/ML specialization from SGT University.
- My core interests remain in the field of technology like Database Management, Data Science and Machine Learning.
- I'm open and a hard-working individual who can work well in teams and work on projects that can help enhance my skills in the field I'm pursuing.

Professional Education

SGT University, Gurugram

B.Tech in Computer Science & Engineering

2020 to 2024

SGPA: 9.10

Neeraj Senior Secondary School

Senior Secondary (XII), Science

2019 to 2020

Percentage: 83.40%

Skills

Languages: C++, SQL, Python3

Tools & Technologies: MS Office, MS Excel, Anaconda, Jupyter Notebook, MySQL

Internships

AI Kairos, Virtual

May 2022 to May 2023

- Gained knowledge and skills in making UML Diagrams.
- Worked and Collaborated with a team of professionals in making UML Diagram using EDrawMax Software for an Organization Project.

Techgyan IIT Bombay, Virtual

May 2022 to May 2023

- Gained knowledge about Python Libraries.
- Interacted and worked on various libraries like NumPy, Pandas, Seaborn and Matplotlib.
- Built a project called 'Stock Prediction System' based on the skills acquired in the internship training.

Academic Projects

Stock Prediction System

May 2023 to June 2023

- This is a machine learning project whose objective is to predict whether the stock price of a particular company will rise or fall in the stock market.
- This project is made by using Python Language with various libraries like NumPy, Pandas and TensorFlow.

Certifications & Courses:

- Machine Learning from Samatrix.io
- Data Analysis Using Python from Samatrix.io
